The Journals of Captain James Cook

Volume III

The Voyage of the *Resolution* and *Discovery*: 1776-1780

JOHN C. BEAGLEHOLE, Editor

In tracing Captain Cook's third and last voyage, the objective of which was the discovery of a Northwest Passage by sea from the Pacific to the Atlantic, Professor Beaglehole presents the full text of Cook's own holograph journals followed by those of Captains Clerke and King for the course of the voyage after Cook's death. The surgeons William Anderson and David Samwell, both admirable observers, left journals which are also printed here in full for the first time.

The documentation is completed, as in the previous volumes, by appendixes of documents and correspondence and by reproductions of original drawings and paintings mainly by John Webber, the expedition's artist.
